Implement forestry Chain of Custody certification system

The following videos will assist learners to develop the skills and knowledge required to implement the forestry chain of custody certification system. Click the link to access video.

[1. Introduction to the unit](#) Duration: 16.02 mins

Discusses the unit components, including:

- Concepts of certification and its link to sustainability
- Limitations
 - Enterprises operate in different ways
 - Firm rules are difficult to establish
 - Exceptions to the guidelines
- Flexible delivery overview of the components

[2. Planning the task – operational implementation plan](#) Duration: 20.48 mins

Learn about operational implementation plans:

- Refining or adapting a Chain-of-custody operational implementation plan for the site
- Key aspects/concepts that influence the plan.

[3. Forest and chain of custody certification – key concepts](#) Duration: 29.22 mins

Learn the key concepts associated with forest and chain-of-custody certification:

- Sustainability
- Drivers for verification of forest sustainability
- An overview of forestry and chain of custody certification systems
- The forestry certification and Chain of Custody system operating in Australia and internationally.

[4. Adapting chain of custody procedures for the site](#) Duration: 30.19 mins

Find out about the procedures required for a Chain of Custody certification management system on a production site, and how to adapt existing procedures:

- wood sourcing
- Chain of Custody System
- legal compliance
- continuous improvement
- collective bargaining.

[5. Site implementation part 1 – Transition to a chain of custody operation](#) Duration: 25.34 mins

Learn the steps required to transition from an operation without Chain of Custody certification to an operation with Chain of Custody certification:

- Induction of staff
- Changes to existing management practices
- Material in stock
- Managing relationships with existing customers and suppliers
- External and internal auditing.

[6. Site implementation part 2 – Operating as a chain of custody business](#) Duration: 29.09 mins

Learn the aspects of operating an enterprise, using a chain-of-custody certification scheme:

- The operational aspects of procedures
- Non-compliance reporting
- Monitored feedback processes and continuous improvement in action.
